## OLYMPIAN XQE100 – 100 kVA / 80 kW RENTAL GENERATOR SETS

CAT® Rental Power offers an extensive modern fleet of portable Caterpillar® Diesel Generators designed to meet the stringent demands and sometimes harsh operating conditions throughout Australia to provide your power requirements from 20 kVA to multi megawatt installations.

CAT Rental Power's new fleet of rental generators with a rating of 350 – 2000 kVA are fitted with a utility grade synchronising panel which also includes the provision to fit ROCOF protection relay's. This synchronising panel allows the generators to operate with the following functions - Manual operation - Island operation - No break transfer - Base load internal control - Base load external control and Automatic mains failure.

### SUMMARY DATA INFORMATION

THIS IS SUMMARY DATA INFORMATION ONLY AND IS NOT FULL SPECIFICATION, SOME EQUIPMENT MAY VARY.

Max. Electrical Output (Prime Power)	100 kVA / 80 kW
Max. Load	139 Amps
Nominal Output Voltage – Phase to Phase	[Volts] +/- 10% 415
Nominal Frequency	[Cycles Per Second/hertz] 50
Overall Length (Metres)	3.58
Overall Width (Metres)	1.15
Overall Height (Metres)	2.03
Weight – Fuel Full	3,200 kg approx.
Weight – Fuel Empty	2,400 kg approx.

### FUEL

Fuel to be Used	Commercial Diesoline
Fuel Tank Capacity (Litres)	766 approx.
Fuel Reserve at 100% Load with Full Tank	30 Hours @ 80 kW
Fuel Consumption (Litres/hour)	23.8 Litres/hour
Fuel Reserve at 75% Load with Full Tank	39 Hours @ 60 kW
Fuel Consumption (Litres/hour)	18 Litres/hour
Fuel Reserve at 50% Load with Full Tank	58 Hours @ 40 kW
Fuel Consumption (Litres/hour)	12.1 Litres/hour

ABOVE ARE ESTIMATE CONSUMPTION VALUES ONLY.
